

The CONCEPT: A versatile Robotics & IoT DIY kit that brings innovation to life. Designed to support hands-on exploration, the kit enables the creation of customisable Robots with programmable movements and smart IoT integration. It encourages learning through experimentation, creativity through design, and excitement through competitive Robot.

Battles. It represents a Dynamic blend of Education, Technology and Interaction

Item Type	Educational Kit
Model Name	The Boxing Bots
Dimensions	457mm x 306mm x 102mm
Weight	3.1 Kg
Color	Black
Degrees of freedom	10

What's in the box:

- Robot Assembly Kit
- 4 BO Motors
- 5 Servo Motors
- TBB Motor Controller
- ESP32 IoT Module
- Buck Voltage Converter
- Motor Wheels
- 7.4V Li-Ion Battery
- Game Controller
- Programming Cables
- Spares Nuts and Bolts-Screw
- Battery Charger.

Key Features

- **Easy Assembly:** Modular build for quick and hassle-free setup
- **Full Customisation:** Programmable control via controllers and mobile apps
- **Wireless Control:** Real-time responsiveness using Bluetooth or game controllers
- **Combat Modes:** Stock moves with support for custom-designed special moves
- **STEM Learning:** Hands-on exposure to Robotics, programming, and problem-solving skills

For All Ages!

Whether you're a curious learner or an experienced creator, this **ROBOTICS** kit guarantees an exciting and educational experience for everyone.
